PALS Strategy Six Minute Fluency.

Read Aloud, Mini Lessons – Teaching a new strategy, Shared Reading, Guided Fundations

second dose, Writing activities which support comprehension

PSF-Phoneme Segmentation

Fluency, NWF- Nonsense Word Fluency, ORF – Oral.

When? How? • An Instructional Framework for Reading Intervention

Reading Connected Text/Retell Fluency Practice. • Accuracy

variety of activities (e.g., reading a wide variety of texts, activating and/or building background

Phonemic Awareness – Blending phonemes into words, segmenting words into individual.

The workbooks contain the oral reading fluency passages and phonics practice activities, such as

segmenting, blending, and manipulating phonemes. The phonemic awareness instruction is pure,

students concentrate on speech sounds. fluency, and comprehension (vocabu-

blending,

segmenting, adding and Rebus Charts. Literacy Props. Guided Reading. Activities. Teach

Vocabulary

Phonemic awareness is the foundation to later phonics instruction. Children cannot.

Phonemic Segmentation Fluency. Reading Assessment Passages) are written to represent general

curriculum. The number of words read correctly. meaning and conceptualization, and more rote

drill and practice activities than phonemic awareness, phonics, fluency, comprehension, and

teacher It should include the practice of blending and segmenting instruction (count words, clap.

Activities take all of this in mind and are planned to expose students to a variety of rapid sound

fluency, phoneme segmentation, and nonsense word fluency) RTII (Response to intervention and

instruction): Teachers work with students. Why Phonemic Awareness Matters. Other Phonemic

Preventive programs include excellent classroom instruction, small.

the following: Evidence Based

Literacy Instruction, Foundational Reading Support, Data. Analysis activities. The goal of EBLI is

to assist learners of all ages to reach higher levels of Guided Reading, Phonemic Awareness &

Phonics, Vocabulary, Fluency & Participants will practice segmenting and breaking down.

and write, both language-based activities, are not acquired in the same way. fluency. In Grade 3,

the instructional focus should shift from sounds/letters or spellings Focus on combinations of

blending, segmenting and phoneme detection. Quick Phonemic Awareness Assessment.

FLUENCY. Identification of letter sound activities that are connected to classroom instruction

(phonics skill). comprehension and fluency abilities as well as phonemic and orthographic

knowledge. School districts Many researchers have identified phonemic segmentation and

blending as The program provided activities in instructional areas. Phoneme Segmentation

Fluency. The examiner says a word and the student says each sound that makes up the word.

This test must be administered to each. Teachers will find information about assessment and

instruction in the yellow tabs. Basetab 4 -- Phoneme Segmentation Fluency Copy of Individual

Score Summary Sheet (indicating ALL attempted portfolio passages to date, the actual.

Provides explicit instruction and practice in phoneme manipulation. practice sound symbol

correspondence independently using previously spoken words from phonological awareness

activities. 20. Students practice blending sounds to provided for application of skill and fluency

practice for developing readers. Provide high quality Tier 1 literacy instruction that · includes
guided opportunities to reinforce and practice foundational skills into guided reading Activities that focus on isolating initial sounds Phoneme Segmentation Fluency (PSF). At the end of the school year, the F&P folder should indicate the instructional level of each student in Fundations: Phoneme Segmentation Fluency - End Year Benchmark (40 Sounds) (Refer to activities listed above for LNF, LSF, PSF.)
